

# مدرسة جواهر دبي الخاصة DUBAI GEM PRIVATE SCHOOL

8 September 2016

Dear Parents,

In accordance with the initiative of the President His Highness Shaikh Khalifa Bin Zayed Al Nahyan, the year 2016 will be a year of reading in the UAE to create a generation of book lovers and consolidate the UAE's position as a global capital for culture and knowledge.

As part of our continuous efforts to embrace the UAE vision we have partnered with AET (Asafeer Education Technologies FZ LLC) to provide our students with an Arabic digital library (online).

Following the testing period we had during the end of last semester, and the feedback received from teachers, parents and students, the Arabic department in Dubai Gem Private School has decided to go ahead with the Digital Arabic Library Service from 3asafeer for this academic year.

In addition, to the improved knowledge about their world, we believe that the library offers great resources for students to improve their reading, listening and comprehension skills in Arabic. We will also be using it in class along with worksheets and activities to develop other literacy skills like vocabulary, grammar and critical thinking skills to name a few. The programme can also be monitored and used from home.

We have received a special subscription offer for our school students of 60/-AED per student per year.

Please sign the consent form below and send it back to the Arabic teacher of the class along with the subscription money of Dhs. 60/-by the 20th of September 2016.

Best regards,

*Amal Hassan*

Amal Hasan,  
Head of Arabic Department
