DUBAI GEM PRIVATE SCHOOL UNIFORM GUIDELINES

Sustainability of Polycotton Blend

The school uniforms are made from a high-quality polycotton blend, consisting of recycled polyester and ethically sourced cotton. This fabric offers durability, comfort, and a reduced environmental footprint, aligning with our commitment to sustainability.

Sustainability Benefits

Recycled Polyester

Made from post-consumer plastics such as recycled PET bottles, this reduces reliance on virgin fossil fuels and diverts plastic from landfills and oceans.

Ethically Sourced Cotton

Our cotton is sourced under strict ethical standards, ensuring fair labour practices and environmentally responsible farming.

Long-Lasting and Low-Maintenance

Polycotton is resistant to shrinkage, wrinkles, and wear. Its extended lifespan means fewer replacements, and its quick-drying nature reduces energy use during laundering.

- All factories meet ETI (Ethical Trading Initiative) base code as foundation members with regular auditing & reviews through our own staff in country following the SMETA methodology and SEDEX data monitoring.
- Any non-compliance or observations highlighted from the audit in the CAPR (Corrective Action Plan Report)
- Own employees in locations of factories as well as head office staff working closely with offshore teams
- Long term relationships with factories many five years +
